# About the Excellence Awards

Now entering its 31st year, the Brandon Hall Group™ Excellence Awards is the most prestigious awards program in the industry. Often called the “Academy Awards” by Learning, Talent and Business Executives, the program was one of the first of its kind when it debuted in 1993. The awards recognize the best organizations that have successfully developed and deployed programs, strategies, modalities, processes, systems, and tools that have achieved measurable results. We are honored to receive applications from organizations around the world ranging from small, medium, large, and global enterprises, to government, not-for-profits, and associations.

## Human Capital Management

*Spring Program*

Open: January 2, 2024 | Deadline: April 12, 2024

### Who should enter:

Training, learning, talent, HR or other related departments can either enter alone or together with a helping organization (such as a vendor aka solution provider, or consultant). Helping organizations cannot enter alone.

## Technology

*Fall Program*

Open: April 22, 2024 | Deadline: September 12, 2024

### Who should enter:

The Technology Fall Program has a dedicated focus on entries from solution providers offering technologies to learning, talent management, talent acquisition, HR, workforce management and sales enablement organizations, as well as technology organizations and departments. Both can enter alone or jointly with their client organizations.

## Education Technology

*Summer Program*

Open: April 22, 2024 | Deadline: September 12, 2024

### Who should enter:

The EdTech Summer Program has a dedicated focus on entries from innovative and cutting-edge trailblazers in education technology. This program is for K-12, Universities, Business Schools, Professional Development and Education Associations, Non-For-Profit, and Government Agencies.

- Future of Work

### TECHNOLOGY PROGRAM AREAS

- Learning and Development
- Talent Management
- Talent Acquisition
- Workforce Management
- Sales Enablement
- Future of Work

### EDUCATION TECHNOLOGY PROGRAM AREAS

- Leaders in Education Technology

# Awards FAQs

## Are our entries kept confidential?

In the online entry form you are given the opportunity to decide whether or not you would like Brandon Hall Group to publish your entry. If you decide not to give permission for your entry to be published, please click "No" when asked if you are giving permission to publish when submitting your entry form. If you select "No" - the information you submit will be kept confidential and will not be published in our member center.

## Can we enter if our program is still in development? Or only once completed? What if it's a new program that we just launched? What if it was launched some years ago (i.e. 2-3 years prior to the date we are entering for an award)?

While we do not have timing requirements for when a program is implemented or how long it must be in place, organizations are encouraged to submit once their programs have been in place long enough to show impact and measurable results. This is an important aspect of the judging criteria so it is critical that you can demonstrate the same before submittal.

## Can I request an extension?

Please contact the program director Rachel Cooke at: [awards@brandonhall.com](mailto:awards@brandonhall.com) to discuss an extension.

## What language must the entry be written in?

All entries must be written in English.

## How are winners selected?

Judges score each entry, and then the judging and scoring are reviewed by Brandon Hall Group's executive leadership team, led by Rachel Cooke. The level of the award is determined by the number of points. There is a point range for **Gold**, **Silver**, and **Bronze**. We don't grade on any kind of curve - the point total determines the award level. That is why in some categories, there may be several bronzes, and silvers, but fewer golds. Or if a category is particularly strong, maybe more golds than silver and bronze. And some categories may not have any winners.

## What is the judging criterion?

Each category has its own judging criterion that is unique to the program area.

## Each of the entries will need to show examples of the following:

- Design of the programs or technologies
- The use and objectives of the program
- Overall benefits and measurable results

Supporting graphics, demos, links and videos where appropriate  
Please download our brochure for the full list of descriptions and judging criteria for each category.

If you have additional questions, please contact us at: [awards@brandonhall.com](mailto:awards@brandonhall.com).

**TECHNOLOGY EXCELLENCE  
AWARDS CATEGORIES >>**

## LEARNING AND DEVELOPMENT

### Best Association Professional Development Program >>

The category, **Best Association Professional Development Program**, is for a written description of any professional or executive development program offered by an industry association for its members or the general public. Program delivery methods may include live, online, or hybrid.

### Best Certification Program >>

The category **Best Certification Program** is for a written description of a learning program that was specifically designed as a certification program. This award honors excellence and innovation in certification programs specifically designed for learning professionals. Winning programs will demonstrate up-to-date standards, competencies, and requirements that reflect the evolving learning landscape.

### Best Competencies and Skill Development >>

The category **Best Competencies and Skill Development** is for a written description of creating a workplace development program designed to support a competency and/or skill development need within an organization. It should include a description of how the skills and competencies were developed and gaps identified.

### Best Compliance Training >>

The category **Best Compliance Training** is for a written description of a learning program that was specifically designed to address a compliance driven learning objective.

### Best Corporate Learning University >>

The category **Best Corporate Learning University** is for a written description of a well-defined strategy that demonstrates positive learning outcomes and performance. This award honors excellence and innovation in corporate universities that drive talent development and business impact. Winning programs will demonstrate leading-edge curricula, technologies, and instructional models aligning learning with core business goals. Ideal submissions will showcase corporate universities that function as strategic partners to the business by building capabilities that enhance performance, productivity, and agility. Programming should flexibly meet the diverse needs of employees at all levels. This entry could be for the launch of a new corporate university or an established existing one.

### Best Custom Content >>

The category **Best Custom Content** is for a written description of creating self-paced, custom-designed online course related to workplace learning.

### Best Customer Training Program >>

The category **Best Customer Training Program** is for a written description of a workplace learning program that has obtained desirable results connected to the program goals and improved business outcomes. This award honors companies delivering exceptional customer training experiences that drive product adoption, satisfaction, loyalty, and advocacy. Winning programs will demonstrate a deep understanding of customer needs paired with engaging instructional design. Ideal submissions will showcase training that is highly relevant to customers' context with intuitive, easy-to-access delivery formats. The content should educate and excite customers about product capabilities and potential.

### **Best Extended Enterprise Learning Program >>**

The category **Best Extended Enterprise Learning Program** is for a written description of learning programs that were designed specifically for an audience other than internal employees. The extended enterprise is referred to the "supply or value chain" of the organization that encompasses the community of partners, suppliers, resellers, customers, and other outsourced functions.

### **Best Hybrid Learning Program >>**

The category **Best Hybrid Learning Program** is for a written description of synchronous learning programs that involves both on-site and remote workers. The program can include asynchronous elements. Program delivery methods may include instructor-led learning, on-the-job training, eLearning, asynchronous/synchronous learning, simulations, mobile, social, video conferencing, video and other modalities and tools.

### **Best Learning Experience Platform – (LXP) Implementation >>**

The category, **Best Learning Experience Platform – (LXP) Implementation**, is for a written description of best practices in purchasing, implementing, and getting business benefits from a Learning Experience Platform (LXP).

### **Best Learning Governance >>**

The category **Best Learning Governance** is for a written description of a workplace learning strategy and governance model that supports a learning vision and positive organizational outcomes.

### **Best Learning in the Flow of Work >>**

The category **Best Learning in the Flow of Work** is for a written description of methods through which employees can quickly get an answer to a question or problem – or a piece of learning material related to their needs – while working. This empowers employees to find immediate value from learning without disrupting their workflow and productivity.

### **Best Learning Leader >>**

The category **Best Learning Leader** honors an influential executive who has driven transformative change in how their organization approaches learning and development. As a strategic Chief Learning Officer or leader in the training function, this individual has spearheaded initiatives that have tangibly advanced organizational performance through human capital development. The ideal winner will exemplify modern learning leadership with vision and innovation. Judges will look for evidence of championing new technologies, instructional models, data analytics approaches, and ways to align learning to business goals. Their leadership has demonstrably amplified the strategic impact of learning on the organization.

### **Best Learning Measurement >>**

The category **Best Learning Measurement** is for a written description of a workplace learning measurement program that assesses the learning outcomes and organizational impact of a learning program or learning function.

### **Best Learning Program Supporting A Change Transformation Business Strategy >>**

The category **Best Learning Program Supporting a Change Transformation Business Strategy** is for a written description of how a learning program was developed and implemented to support a major change within the organization. The change may include one or more of following:

- Mergers and acquisitions.
- Systems or operating model conversions.
- Product changes and migrations.
- Systems consolidation."

### **Best Learning Strategy >>**

The category **Best Learning Strategy** is for a written description of a workplace learning strategy and governance model that supports a learning vision and positive organizational outcomes.

### **Best Learning Team >>**

The category **Best Learning Team** is for a written description of the teamwork and accomplishments of a team of learning professionals in workplace learning.

### **Best Learning Technology Implementation >>**

The category **Best Learning Technology Implementation** is for a written description of learning technology implementation that led to positive organizational outcomes.

### **Best Results of a Learning Program >>**

The category **Best Results of a Learning Program** is for a written description of a workplace learning program that has obtained desirable results connected to the program goals and improved business outcomes.

### **Best Team Development Program >>**

The category of **Best Team Development Program** is for a written description of a program that develops team dynamics, practices and performance – whether it is an executive team, management team, cross-functional team or other type of team. The program should be focused on the alignment and productivity of the team, rather than the development of individuals within a team.

### **Best Training Program for Global Accessibility Standards >>**

The category **Best Training Programs for Global Accessibility Standards** is for a written description of a learning program that incorporates global accessibility standards which make the learning accessible to audiences with disabilities. (Best Accessibility Solution).

### **Best Unique or Innovative Learning and Development Program >>**

The category **Best Unique or Innovative Learning and Development Program** is for a written description of a workplace-learning program that is innovative and drives positive organizational outcomes.

### **Best University Professional Development Program >>**

The category, **Best University Professional Development Program**, in the Learning and Development program is for a written description of any type of professional or executive development program offered by universities/academic institutions. Program delivery methods may include live, online or hybrid.

### **Best Use of Blended Learning >>**

The category **Best Use of a Blended Learning Program** is for a written description of a workplace-learning program using two or more delivery methods. Blended learning combines traditional Instructor-led training (ILT) with a mix of digital learning activities. This award honors innovative implementations of blended learning that integrate digital and in-person instruction. Winning entries will demonstrate a learner-centric blend of self-paced online activities with real-time sessions.

### Best Use of AI for Learning >>

The category **Best Use of AI for Learning** is for a written description of a workplace-learning program that is innovative and drives positive organizational outcomes. This entry highlights an innovative AI-powered personalized learning platform designed to provide customized education experiences for students.

### Best Use of Augmented Reality and Metaverse >>

The category **Best Use of Augmented Reality and Metaverse** is for a written description of a workplace learning program that recognizes excellence in leveraging augmented reality (AR) and metaverse technologies to create impactful, immersive experiences. Winning entries will demonstrate innovative implementations that seamlessly blend AR with 3D virtual environments, social spaces, and other metaverse components. The ideal submission will showcase how AR can enhance metaverse engagement by overlaying digital information and virtual objects within the virtual space. This application could include AR navigation aids, data visualization overlays, virtual characters, and assets, simulated tangible objects, and more.

### Best Use of Games and Simulations for Learning >>

The category **Best Use of Games or Simulations for Learning** is for a written description of a workplace-learning program that includes one or both of the following:

- One or several gaming components in the course of an overall learning program (A game should include these elements: structure, challenge, goal, and accomplishments).
- One or several simulation models that illustrate a real-world example or experience.

### Best Use of Mobile Learning >>

The category **Best Use of Mobile Learning** is for a written description of a workplace learning program that includes content on portable devices such as smart phones, tablets, music players, hand-held computers, hand-held game players, GPS devices, or other mobile tools.

### Best Use of Performance Support >>

The category **Best Use of Performance Support** is for a written description of a workplace-learning program that provides snippets of information and help at the point of need to aid performance.

### Best Use of Section 508 Requirements for Training Platforms >>

The category **Best Use of Section 508 Requirements for Training Platforms** is for a written description of a learning program that incorporates Section 508 elements, which make learning accessible to audiences with disabilities. (Best Accessibility Solution).

### Best Use of Social Collaborative Learning >>

The category **Best Use of Social Collaborative Learning** is for a written description of a workplace-learning program in which learners use social tools (social media, or Web 2.0/3.0 tools) to create and share content. In social learning, the learners connect with each other and create and share content using tools such as blogs, wikis, communities, or other collaborative tools.

### Best Use of Video for Learning >>

The category **Best Use of Video for Learning** is for a written description of a workplace learning program that includes video content on learners' computers or mobile devices.

## TALENT MANAGEMENT

### Best Approach for Talent Forecasting >>

The category **Best Approach for Talent Forecasting** is for a written description of how the integration of talent data among talent processes and the enablement of the processes via technology exposes transparently of talent data, which demonstrates measurable benefits and outcomes, particularly as they relate to organizational efficiency and effectiveness, business alignment, and prediction of future talent requirements.

### Best Competency Management Strategy >>

The category **Best Competency Management Strategy** is for a written description of a workplace strategy and approach to developing a competency strategy and model that encompasses core competencies that are reflective of the organization's culture and values, and leadership competencies, which shape the behaviors and traits that are required of leaders at all levels for successful performance.

### Best Corporate Culture Transformation >>

The category **Best Corporate Culture Transformation** is for a written description of a workplace strategy to improve the corporate culture that includes greater career opportunities, increased team collaboration, and employee satisfaction, engagement, and retention.

- Building and managing client relationships
- Managing budgets and other KPIs to align with organizational goals
- Moving from thinking tactically to strategically
- Leading teams in a VUCA (volatility, uncertainty, complexity, and ambiguity) environment"

### Best Talent Mobility Program >>

The category **Best Talent Mobility Program** is for a written description of best practices in developing a talent mobility strategy that accelerates the organization's performance on business metrics and the employees' engagement and productivity.

### Best Unique or Innovative Leadership Development >>

The category **Best Unique or Innovative Leadership Development Program** in the Leadership Development program is for a written description of a workplace-leadership development program that is innovative and drives positive organizational outcomes.

### Best Use of AI for Leadership Development >>

The category **Best Use of AI for Leadership Development** is for a written description of innovatively leveraging AI to transform leadership development and create business impact. Criteria focus on:

- Use of AI technology to personalize and optimize leadership training.
- Measurable improvements in leadership competencies and skills.
- Increased engagement/participation rates in leadership development programs.
- Business results achieved through AI-powered leadership training, such as improved retention, productivity, etc.
- ROI of the AI solution for leadership development.
- Scalability of the AI technology across the enterprise.
- Ethical use of AI that benefits leaders and the organization.

Submissions should showcase how the organization's use of AI enriched leadership capability building and delivered quantifiable business value."

### Rising Stars Program >>

Innovation and new ways of thinking begin at all levels of the organization. Millennials are already the largest segment of the workforce. By 2025, Millennials and Gen Z are projected to comprise more than 75% of the global workforce.

This group is talented and bright and is offering and contributing a fresh approach with new and creative ideas for Human Capital Management. Brandon Hall Group's Excellence Awards Program is seeking written entries from organizations that have identified rising talents in their organization.

Nominee Requirements:

- Must be employed for at least one year at current organization.
- Must be sponsored by a Senior Management Leader.
- Initiative could be led by the individual or team.

Submit a project, driven or led by the nominee that demonstrates innovation and business impact in one or more of the following areas:

- Learning & Development
- Talent Management
- Leadership Development
- Talent Acquisition
- Diversity, Equity & Inclusion
- Human Resources
- Sales Performance
- Technology

Submission Requirements:

- Complete the entry form.
- Submit a video (ranging from about 45 seconds up to 3 minutes) from the nominee explaining the project.

## HUMAN RESOURCES

### **Best Benefits Strategy and Administration >>**

The category **Best Benefits Strategy and Administration** is for a written description of creating a benefits strategy and administration process that is effective and appropriate for the overall business strategy and the business/organizational needs and situation.

### **Best Benefits, Wellness and Well-Being Program >>**

The category **Best Benefits, Wellness and Well-Being Program** is for a written description of an organization's approach to planning, developing, and implementing and managing its wellness program. The entry should include details of how this program effectively impacted its employees and organization.

### **Best HR Data Analytics >>**

The category **Best HR Data Analytics** is for a written description of an HR data analytics model that is effective and appropriate for the overall business strategy and the business/organizational needs and situation.

### **Best HR Leader >>**

The category **Best HR Leader** honors an inspiring individual who has demonstrated expertly led initiatives to transform our workplace culture, promote diversity and inclusion, optimize talent acquisition, develop future leaders, and build a skilled, engaged workforce. The person's innovative vision and ability to align HR strategy with business goals delivered tremendous value.

### **Best HR Strategy and Measurement Approach >>**

The category **Best HR Strategy and Measurement Approach** is for written descriptions of workplace HR strategies and measurement models that support an organizational vision and creates positive organizational outcomes.

### **Best Payroll Strategy and Administration >>**

The category **Best Payroll Strategy and Administration** is for a written description of creating a payroll strategy and administration process that is effective and appropriate for the overall business strategy and the business/organizational needs and situation.

### **Best Social Impact >>**

The category **Best Social Impact** is for a written description of a great example(s) of innovation related to an organization's outreach to individuals or groups that are not customers or employees. The innovation should be focused on making a social impact related to the organization's mission, vision, and values rather than specific business objectives. These might include, as examples, philanthropy, environmental conservation, diversity, equity and inclusion practices outside the organization, and volunteerism.

### Best Strategy for Corporate Citizenship >>

The category **Best Strategy for Corporate Citizenship in the Human Resources** program is for written descriptions of a corporate citizenship strategy that offers unique opportunities and experiences to those that are lacking resources and abilities to do so on their own. Brandon Hall Group is interested in examples of great ideas of excellence and innovation that is making our field and the world better.

Here are some examples of programs:

- College credit for completion of L&D courses
- GED assistance & other support
- Creating opportunities for young workers
- Scholarships for military veterans
- Pay employees to learn new skills (math and computer, etc.) and volunteer in the community
- Training and recruiting in underprivileged high schools
- Developing jobs for the elderly

### Best Unique or Innovative HR Program >>

The category **Best Unique or Innovative HR Program** is for a written description of a workplace HR program that is innovative and drives positive organizational outcomes.

### Best Use of AI for HR >>

The category **Best Use of AI for HR** is for a written description of an initiative involving the use and application of artificial intelligence that, directly or indirectly, substantially contributes to positive business outcomes.

### Best Workforce Planning and Management >>

The category **Best Workforce Planning and Management** is for a written description of an organizations approach to developing a workforce strategy and model for executing on that strategy. It should include how key processes for an organization manages and plans their workforce so that it supports an organizational talent strategy and creates positive organizational outcomes. Specifically, this category should include the strategy and process for workforce forecasting, scenario planning, segmentation, and models for managing, assessing, and measuring the outcomes.

## SALES PERFORMANCE

### Best Model of a Growth Focused Organization >>

The category **Best Model of a Growth Focused Organization** is for a written description of companies that have experienced substantial growth and have increased market share resulting from transformational change through a strategy for improving and streamlining their people, processes, and systems.

Specifically, this includes growth through one or more of the following:

- **Innovation.** Technology, creativity, or strategy.
- **Talent.** Investing in developing their people and hiring talent.
- **Strategy.** Process transformation (streamlining their processes to be more efficient and effective).

### Best Program for Sales Training and Performance >>

The category **Best Program for Sales Training and Performance** is for a written description of workplace learning programs that were specifically designed to address sales performance objectives through sales training.

### Best Sales Leader >>

The category **Best Sales Leader** honors an exemplary sales leader driving rapid growth and digital transformation initiatives. Ability to build high-performing teams and implement sales enablement technologies, including AI-powered tools. A visionary approach to blending technology and human skills development to establish the salesforce as an industry leader.

### Best Sales Leadership Development Program >>

The category **Best Sales Leadership Development Program** is for a written description of best practices in developing and delivering an effective sales leadership development program.

### Best Sales Onboarding Program >>

The category **Best Sales Onboarding Program** is for a written description of best practices for onboarding new salespeople into the organization. More specifically, the sales onboarding program includes examples of the process, tools, and technology used to make sales onboarding effective and efficient.

### Best Sales Operations Strategy >>

The category **Best Sales Operations Strategy** is for a written description of the strategy for organizing your sales force for success. Specifically, this includes a description of the strategy elements such as:

- Sales and reporting structure.
- Territory plan models.
- Sales processes and tools.
- Supporting technologies.

### **Best Sales Talent Management Program >>**

The category **Best Sales Talent Management Program** is for a written description of the integrated talent management strategy within the sales organization for the following: Specifically, this includes a description of the integrated HR processes and employee/talent lifecycle models that support a talent strategy such as:

- Performance Management
- Talent Acquisition/onboarding
- Learning Management
- Succession and Career Management
- Rewards and Compensation
- Workforce Management and Workforce Planning"

### **Best Sales Training Program for Extended Enterprise >>**

The category **Best Sales Training Program for Extended Enterprise** is for a written description of learning programs that were specifically designed for an extended enterprise sales audience. The extended enterprise is referred to the "supply or value chain" of the organization that encompasses the community of partners, suppliers, resellers, customers, and other outsourced functions.

### **Best Talent Acquisition Process for Hiring Sales Professionals >>**

The category **Best Talent Acquisition Process for Hiring Sales Professionals** is for a written description of best practices in the process of hiring. More specifically, sales leaders should be able to manage the hiring process and effectively acquire the right sales professionals based on competencies and corporate alignment. The Best Talent Acquisition Process category is for a written description of the process, tools, and technology that help to make the hiring of employees effective and efficient.

### **Best Team Development Programs for Sales Team >>**

The category **Best Team Development Program for Sales Teams** in the Sales Performance program is for a written description of that best describes excellence in development for the sales executive team, management team or cross-functional team rather than the development of an individual sales or marketing professional. Provide written descriptions of the program that was implemented to foster greater alignment and productivity of the team.

### **Best Unique or Innovative Sales Training Program >>**

The category **Best Unique or Innovative Sales Training Program** is for a written description of a workplace sales training program that is innovative and drives positive organizational outcomes.

### **Best Use of a Customer Relationship Management (CRM) Solution >>**

The category **Best Use of a Customer Relationship Management (CRM) Solution** is for a written description of best practices in how your sales departments are successfully using these systems to improve sales force effectiveness in the following ways:

- Account management
- Improving win/close ratios
- Process for follow up
- Reporting
- Aligning with marketing and better process for managing campaigns and outreach
- Increase revenue results

### **Best Use of AI for Sales Performance >>**

The category **Best Use of AI for Sales Performance** is for a written description of how your sales departments are successfully AI to train their teams more effectively and efficiently on new and existing products, provide performance support, and, if applicable, integration with your customer relationship automation system (CRM) and other systems. The solution offers innovative applications of AI technology to enhance sales productivity, improve coaching, and increase performance.

## DIVERSITY, EQUITY AND INCLUSION

### **Best Corporate Outreach to Promote Diversity, Equity, Inclusion and Belonging in Communities >>**

The category **Best Corporate Outreach to Promote Diversity, Equity, Inclusion and Belonging in Communities** is for a written description of an organization's outreach efforts to communities it serves (e.g., customers, students, community organizations, governments, general populations in geographic regions where the organization has operations) that reflect the organization's diversity, equity, inclusion and belonging mission, vision, and values.

### **Best Diversity, Equity, Inclusion and Belonging Strategy >>**

The category **Best Diversity, Equity, Inclusion and Belonging Strategy** is for a written description of a workplace strategy to improve diversity, equity, inclusion and belonging to support an organizational vision and create positive organizational outcomes.

### **Best Governance of Diversity, Equity, Inclusion and Belonging >>**

The category **Best Governance of Diversity, Equity, Inclusion and Belonging** is for a written description of a governance model that supports an organization's diversity, equity and inclusion mission, vision, values and objectives and organizational and business outcomes.

### **Best in Leading Diversity, Equity, Inclusion and Belonging Initiatives >>**

The category **Best In Leading Diversity, Equity, Inclusion, and Belonging Initiatives** is for a written description of best practices in developing diversity, equity, inclusion, and belonging initiatives in the workplace. The initiative could be for leaders, individuals, teams, groups, committees, or councils.

### **Best Leader for DEIB >>**

The category **Best Leader for DEIB** honors an inspiring individual who has demonstrated exceptional leadership and commitment to advancing diversity, equity, inclusion, and belonging in the workplace. The recipient will have spearheaded impactful initiatives to build a culture of belonging where all employees feel welcomed, valued, and empowered. Their vision and ability to drive meaningful progress exemplify the values and behaviors of an inclusive leader dedicated to helping each person reach their full potential.

### **Best Leadership Development for Racial/Ethnic Minorities >>**

The category **Best Leadership Development for Racial/Ethnic Minorities** is for a written description of best practices in developing and delivering an effective leadership development program targeted specifically for racial and ethnic minorities. More specifically, the Best Advance in Leadership Development for Racial/Ethnic Minorities entry is for written descriptions of an organization's efforts to develop talented and high-potential individuals who have traditionally been under-represented in leadership. The goal is to develop a leadership group that is representative of the composition of the organization's workforce, community, and customer base.

**EDUCATION TECHNOLOGY EXCELLENCE AWARDS CATEGORIES >>**

## LEARNING AND DEVELOPMENT TECHNOLOGY

### Best Advance in AI and Machine Learning

The category **Best Advance in AI and Machine Learning** in the Learning and Development program is for a written description of technology that leverages AI and Machine Learning to personalize and contextualize learning based on individuals' objectives, preferences and learning styles.

### Best Advance in Augmented and Virtual Reality

The category **Best Advance in Augmented and Virtual Reality** in the Learning and Development program is for a written description of technology that leverages augmented or virtual reality to create immersive artificial experiences that enable learners to apply knowledge, skills and competencies to address real-world situations.

### Best Advance in Content Authoring Technology

The category **Best Advance in Content Authoring Technology** in the Learning and Development program is for a written description of technology built primarily to design, develop and create content used in training and learning experiences.

### Best Advance in Content Management Technology

The category **Best Advance in Content Management Technology** in the Learning and Development program is for a written description of technology built primarily to assist in the management, administration, and/or dissemination of content used in training and learning experiences.

### Best Advance in Education Delivered Through Technology

The category **Best Advance in Education Delivered Through Technology** in the Learning and Development program is for a description of a workforce learning program that was enabled or measurably improved by the technology through which it was designed and/or delivered.

### Best Advance in Emerging Learning Technology

The category **Best Advance in Emerging Learning Technology** in the Learning and Development program is for a written description of how technologies were applied to improve the quality, depth, breadth or impact of learning in an organization.

### Best Advance in Gaming or Simulation Technology

The category **Best Advance in Gaming or Simulation Technology** in the Learning and Development program is for a written description of technology that enables and facilitates experiential learning through serious games or real-world scenarios that enable learners to apply skills in a safe environment.

### Best Advance in ILT Management and Delivery

The category **Best Advance in ILT Management and Delivery** in the Learning and Development program is for a written description of a technology that digitizes ILT resources into an engaging portal with robust instructor tools to manage courses and track progress. Their platform revolutionizes ILT through innovation, mobile-friendly, and data-driven.

### **Best Advance in Learning Management Measurement/Business Impact Tools**

The category **Best Advance in Learning Management Measurement/Business Impact Tools** in the Learning and Development program is for a description of tools that enable and facilitate measurement of the impact of learning on business results. Functionality can include, but is not limited to, measurement of behavior change, KPIs and delivery of pre-learning assessments that identify knowledge or skill gaps and post-learning assessments that measure progress and identify next steps.

### **Best Advance in Learning Management Technology**

The category **Best Advance in Learning Management Technology** in the Learning and Development program is for a description of development of technology that delivers measurable improvement in learning delivery and outcomes.

### **Best Advance in Learning Management Technology for Compliance Training**

The category **Best Advance in Learning Management Technology for Compliance Training** in the Learning and Development program is for a written description of technology used primarily to facilitate or improve the quality of training focused on compliance with laws, regulations or policies critical to the organization.

### **Best Advance in Learning Management Technology for External Training**

The category **Best Advance in Learning Management Technology for External Training** in the Learning and Development program is for a description of technology that facilitates or improves the quality of training designed for the extended enterprise, which includes, but is not limited to, contractors, resellers and customers.

### **Best Advance in Learning Management Technology for Small and Medium-Sized Businesses**

The category **Best Advance in Learning Management Technology for Small and Medium-Sized Businesses** in the Learning and Development program is for a description of the development of technology that delivers measurable improvement in learning delivery and outcomes.

### **Best Advance in Mobile Learning Technology**

The category **Best Advance in Mobile Learning Technology** is for a written description of technology that facilitates learning through mobile devices. The technology enables learners to solve learning scenarios and gain new skills and competencies through device based learning.

### **Best Advance in Performance Support Technology**

The category **Best Advance in Performance Support Technology** in the Learning and Development program is for a written description of how an electronic performance support system or similar technology was used to provide just-in-time training or advice that enables users to apply knowledge to specific tasks or operations.

### **Best Advance in Performance Support Technology for Crisis Management**

The category **Best Advance in Performance Support Technology for Crisis Management** for a Technology in the Learning and Development program is for a written description of a technology solution that helps provide tools and aids to support a crisis. The crisis can be external, such as the coronavirus pandemic, or internal, such as layoffs, bankruptcy, a significant business downturn, or product or service deficiency.

## Best Advance in Social Learning Technology

The category **Best Advance in Social Learning Technology** in the Learning and Development Program is for a written description of technology that facilitates learning through virtual interactions between individuals, groups or teams. The technology enables learners to collaborate to solve learning scenarios and gain new skills and competencies by sharing knowledge, insights and experiences.

## Best Advance in Software for a Training Company

The category **Best Advance in Software for a Training Company** is for a written description of technology that facilitates ILT and VILT. The technology enables learners to solve learning scenarios and gain new skills and competencies through event based learning.

## Best Advance in Technology for Crisis Management

The category **Best Advance in Technology for Crisis Management** for a Technology in the Learning and Development program is for a written description of a technology solution that helps manage and enable a process to support a crisis. The crisis can be external, such as the coronavirus pandemic, or internal, such as layoffs, bankruptcy, a significant business downturn, or product or service deficiency.

## Best Advance in Technology for Testing or Learning Evaluation

The category **Best Advance in Technology for Testing or Learning Evaluation** is for a written description of technology tools with features including user group creation, assessments for testing & quizing, tracking, analytics, reporting, and automation of processes.

## Best Advance in Technology for Virtual-Classroom or Conferencing Technology

The category **Best Advance in Technology for Virtual-Classroom or Conferencing Technology** is for a written description of technology that facilitates learning through virtual conference solutions. The technology enables learners to collaborate with each other through live virtual events.

## Best Advance in Unique Learning Technology

The category **Best Advance in Unique Learning Technology** in the Learning and Development program is for a written description of how break-through technology innovation, thought to be an invention or a unique application for an industry or function, was applied to improve the quality, depth, breadth or impact of learning.

## Best Advance in Video for Learning

The category **Best Advance in Video for Learning** in the Learning and Development program is for a written description of technology that facilitates the use of video to create solutions that improve the applicability, impact and cost-effectiveness of learning.

## TALENT MANAGEMENT TECHNOLOGY

### Best Advance in an Integrated Talent Management Platform

The category **Best Advance in an Integrated Talent Management Platform** in the Talent Management program is for a written description of software that assists in managing a variety of talent functions (including but not limited to recruitment, workforce planning, performance management, learning, career development, succession) in an integrated fashion that prevents the siloing of functions that must be aligned and coordinated to optimally leverage talent.

### Best Advance in Career Management or Planning Technology

The category **Best Advance in Career Management or Planning Technology** in the Talent Management Technology program is for a written description of a Technology platform that enables processes for managing career succession of an organization's leadership, key talent, and employee workforce that supports an organizational vision and creates positive organizational outcomes.

### Best Advance in Emerging Talent Management Technology

The category **Best Advance in Emerging Talent Management Technology** in Talent Management Technology program is for a written description of how technologies were applied to improve the quality, depth, breadth or impact of talent in an organization.

### Best Advance in Employee Engagement Technology

The category **Best Advance in Employee Engagement Technology** in the Talent Management program is for a written description of technology that helps boost employee engagement in a variety of ways, including but not limited to facilitation of collaboration, recognition and rewards, social networking, gamification, communication and feedback, and workplace flexibility.

### Best Advance in Leadership Simulation Tools

The category **Best Advance in Leadership Simulation Tools** in the Talent Management Technology program is for a written description of technology that enables and facilitates experiential leadership learning through serious games or real-world scenarios that enable learners to apply skills in a safe environment.

### Best Advance in Online Coaching Tools

The category **Best Advance in Online Coaching Tools** in the Talent Management Technology program is for a written description of how new or enhanced technology platforms or software improved the capacity of employers to offer coaching to more employees and improved the quality and impact of coaching in the organization.

### Best Advance in Online Mentoring Tools

The category **Best Advance in Online Mentoring Tools** in the Talent Management Technology program is for a written description of how new or enhanced technology platforms or software improved the capacity of employers to offer coaching to more employees and improved the quality and impact of coaching in the organization.

### **Best Advance in Performance Management Technology**

The category **Best Advance in Performance Management Technology** in the Talent Management program is for a written description of how technology innovation improved the quality or expanded the scope of performance management and had a measurable business impact.

### **Best Advance in Performance Management Technology for Crisis Management**

The category **Best Advance in Technology for Crisis Management** in the Talent Management Technology program is for a written description of a technology solution that helps manage and enable a process to support a crisis. The crisis can be external, such as the coronavirus pandemic, or internal, such as layoffs, bankruptcy, a significant business downturn, or product or service deficiency.

### **Best Advance in Social Talent Management Technology**

The category **Best Advance in Social Talent Management Technology** in the Talent Management Technology program is for a written description of technology that facilitates collaboration through virtual interactions between individuals, groups or teams. The technology enables learners to collaborate to solve learning scenarios and gain new skills and competencies by sharing knowledge, insights and experiences.

### **Best Advance in Succession Management Technology and Tools**

The category **Best Advance in Succession Management Technology and Tools** in the Talent Management program is for a description of software that facilitates a systematic approach to identifying, selecting and developing key employees to assume roles that are critical to an organization's current and future success.

### **Best Advance in Talent Management Measurement/Business Impact Tools**

The category **Best Advance in Talent Management Measurement/Business Impact Tools** in the Talent Management program is for a description of tools that facilitate measuring the effectiveness of strategies and processes used to attract, develop, retain and deploy employees with the necessary competencies to meet an employer's current and future business needs.

### **Best Advance in Talent Management Technology for Small and Medium-Sized Businesses**

The category **Best Advance in Talent Management Technology for Small and Medium-Sized Businesses** in the Talent Management Technology program is for a description of the talent management technology that delivers measurable improvement in talent management delivery and outcomes.

### **Best Advance in Technology for Crisis Management**

The category **Best Advance in Technology for Crisis Management** for a Technology in the Learning and Development program is for a written description of a technology solution that helps manage and enable a process to support a crisis. The crisis can be external, such as the coronavirus pandemic, or internal, such as layoffs, bankruptcy, a significant business downturn, or product or service deficiency.

### **Best Advance in Unique Talent Management Technology**

The category **Best Advance in Unique Talent Management Technology** in Talent Management Technology program is for a written description of how break-through technology innovation, thought to be an invention or a unique application for an industry or function, was applied to improve the quality, depth, breadth or impact of talent.

## TALENT ACQUISITION TECHNOLOGY

### Best Advance in Candidate Assessments Technology

The category **Best Advance in Candidate Assessments Technology** in the Talent Acquisition program is for a written description of technology that has a measurable positive impact on assessing the skills, competencies, aspirations, behavior traits or other qualities and capabilities that help organizations make hiring decisions.

### Best Advance in Candidate Experience Management Technology

The category **Best Candidate Experience Management Technology** in the Talent Acquisition program is for a written description of how the solution improves the candidate experience. The entry should detail how the solution incorporates social, mobile, and video technologies to help build talent communities to connect, engage, and develop relationships.

### Best Advance in Emerging Talent Acquisition Technology

The category **Best Advance in Emerging Talent Acquisition Technology** in the Talent Acquisition program is for a written description of their innovative use of augmented writing to rewrite job posts for maximum diversity and inclusion. The solution leverages AI to analyze and modify language, removing biased wording to attract a broader range of candidates. The application use of new technology promotes fairness and mitigates bias in recruiting.

### Best Advance in Employee Referral Technology

The category **Best Advance in Employee Referral Technology** in the Talent Acquisition program is for a written description of the technology that helps simplify and optimize referrals with an intuitive interface, automated matching algorithms, and data-driven tools to identify and prompt top advocates.

### Best Advance in Mobile Talent Acquisition Technology

The category **Best Advance in Mobile Talent Acquisition Technology** in the Talent Acquisition program is for a written description of a user-friendly app that allows candidates to easily search for open positions, submit resumes and applications, schedule interviews, and communicate with recruiters from their smartphones or tablets. This app should transform the way companies attract and engage talent.

### Best Advance in Onboarding Technology

The category **Best Advance in Onboarding Technology** in the Talent Acquisition program is for a written description of a technology platform for onboarding new employees into the organization. The solution enabled the strategy and process to make onboarding effective and efficient.

### Best Advance in Recruitment Marketing Technology

The category **Best Recruitment Marketing Technology** in the Talent Acquisition program is for a written description of the technology that effectively delivers recruitment marketing processes. The solution offers marketing recruiting tools to enable strategy and process of brand messaging through various channels while measuring the effectiveness and impact.

### **Best Advance in Recruitment Process Outsourcing (RPO) Technology**

The category **Best Advance in Recruitment Process Outsourcing (RPO) Technology** in the Talent Acquisition program is for a written description of the technology for their AI-powered recruiting solution explicitly designed for enterprise-level hiring. The platform optimizes end-to-end recruiting with predictive analytics, automated workflows, and integrated chatbots that provide transparency into KPIs like time-to-fill and source of hire.

### **Best Advance in Social Talent Acquisition Technology**

The category **Best Advance in Social Talent Acquisition Technology** in the Talent Acquisition program is written description of the technology that enables hiring processes using social technologies. The technology helps manage the hiring process and effectively acquire the best types of people based on competencies and corporate alignment.

### **Best Advance in Sourcing Technology**

The category **Best Recruitment Marketing Technology** in the Talent Acquisition program is for a written description of the technology that effectively delivers recruitment marketing processes. The solution offers marketing recruiting tools to enable strategy and process of brand messaging through various channels while measuring the effectiveness and impact.

### **Best Advance in Talent Acquisition Technology**

The category **Best Advance in Talent Acquisition Technology** in the Talent Acquisition program is for a written description of best practices for leveraging technology in hiring. More specifically, leaders should be able to manage the hiring process and effectively acquire suitable types of people based on competencies and corporate alignment enabled through the platform.

### **Best Advance in Talent Acquisition Technology for Small and Medium-Sized Businesses**

The category **Best Advance in Talent Acquisition Technology for Small and Medium-Sized Businesses** in the Talent Acquisition program is for a written description of their end-to-end recruiting platform designed for lean, high-growth companies. The unified solution simplifies everything from job posting to offer letters with tailored tools optimized for efficient hiring. Machine learning matches candidates to roles, while self-service portals drive candidate engagement on a limited budget. Their platform empowers strategic recruiting regardless of size.

### **Best Advance in Unique Talent Acquisition Technology**

The category **Best Advance in Unique Talent Acquisition Technology** in the Talent Acquisition program is for a written description how break-through technology innovation, thought to be an invention or a unique application for an industry or function, was applied to improve the quality, depth, breadth of hiring diverse talent.

## HUMAN RESOURCES/WORKFORCE TECHNOLOGY

### Best Advance in Assessment and Survey Technology

The category **Best Advance in Assessment and Survey Technology** in the Human Resources Technology program is for a written description of a solution that captures real-time employee feedback through pulse surveys, analyzing text with a natural language process (NLP) to generate insights. Advanced analytics quantify engagement drivers and emerging risks so leaders can take targeted action.

### Best Advance in Compensation and Benefits and/or Payroll Administration

The category **Best Advance in Compensation and Benefits and/or Payroll Administration** in the Human Resources Technology program is for a written description of a highly configurable system that condenses complex compensation and benefits processes into a single integrated solution. Smart workflows and automation streamline payroll processing while robust analytics provide strategic insights.

### Best Advance in Emerging HR or Workforce Management Technology

The category **Best Advance in Emerging HR or Workforce Management Technology** in the Human Resources Technology program is for a written description how newly developed or newly enhanced technologies were applied to improve the quality, depth, breadth or impact of HR and/or workforce management programs, initiatives or services.

### Best Advance in HR or Workforce Management Technology for Small and Medium-Sized Businesses

The category **Best Advance in HR or Workforce Management Technology for Small and Medium-Sized Businesses** in the Human Resources is for a written description of an all-in-one HR platform designed for agile growth companies. The unified solution streamlines onboarding, time tracking, payroll, benefits admin, performance management, and other critical HR functions through easy-to-use tools optimized for SMBs.

### Best Advance in HR Predictive Analytics Technology

The category **Best Advance in HR Predictive Analytics Technology** in the Human Resources Technology program is for a written description of the technology that leverages AI and machine learning to uncover actionable insights from HR data. Advanced statistical models and techniques identify trends and patterns to predict key workforce metrics from performance to retention.

### Best Advance in Rewards and Recognition Technology

The category **Best Advance in Rewards and Recognition Technology** in the Human Resources Technology program is for a written description of a next-generation employee recognition platform. The solution utilizes advanced natural language processing to detect achievement and praise in employee communications. It can automatically trigger rewards like gift cards, trophies, and company social feed postings.

## **Best Advance in Technology for Readapting to the Workplace and Workplace Culture**

The category **Best Advance in Technology for Readapting to the Workplace and Workplace Culture** in the Human Resources in Technology program is for a written description of how technology enabled employees to adjust to changes in how, where and when work is done and any corresponding changes to workplace culture, communication or organization.

## **Best Advance in Time and Labor Management (time and attendance, scheduling, absence and leave management, compliance, self-service)**

The category **Best Advance in Time and Labor Management in the Human Resources Technology** program is for a written description of an innovative timekeeping and scheduling platform. The solution leverages AI and advanced analytics to simplify everything from clocking in and out to shift swapping. Real-time data provides insights to optimize staff allocation, while self-service tools drive employee engagement.

## **Best Advance in Unique HR or Workforce Management Technology**

The category **Best Advance in Unique HR or Workforce Management Technology** in Human Resources Technology program is for a written description of how break-through technology innovation, thought to be an invention or a unique application for an industry or function, was applied to improve the quality, depth, breadth or impact of Human Resources.

## SALES ENABLEMENT TECHNOLOGY

### Best Advance in Client Acquisition and Retention Technology

The **Best Advance in Client Acquisition and Retention Technology** in the Sales Enablement program is for a written description of the technology for sales technologies designed to optimize client acquisition and retention. Nominees should demonstrate how they identify high-value prospects and provide insights to develop them into long-term customers. The ideal submission will showcase AI-powered capabilities to segment markets, predict buyer needs, and personalize outreach for faster deal cycles. Submissions should highlight tools to strengthen existing customer relationships through loyalty programs, education, and engagement.

### Best Advance in Client Relationship Management Automation

The category **Best Advance in Client Relationship Management Automation** in the Sales Enablement program is for a written description of the technology for innovation in CRM platforms that automate and optimize sales, marketing, and customer engagement workflows. Nominees should demonstrate how advanced AI and automation capabilities help teams manage relationships more efficiently throughout the customer lifecycle. The ideal submission will showcase intuitive features that centralize CRM data and provide actionable insights to strengthen customer connections. Submissions should highlight how the solution empowers teams across departments to work more collaboratively for increased productivity and performance.

### Best Advance in Mobile Sales Enablement and Performance Tools

The category **Best Advance in Sales Enablement and Performance Tools** in the Sales Enablement program is for a written description of the technology for innovation in sales enablement platforms and sales performance analytics tools designed to maximize sales productivity. Nominees should demonstrate how they provide sales teams with the strategies, messaging, content, training, and insights needed to have more effective customer conversations. The ideal submission will showcase how the solution helps sales organizations achieve revenue goals by equipping reps with the skills to succeed. Submissions should highlight advanced capabilities to track KPIs, identify coaching opportunities, deliver hyper-targeted content, and analyze interactions.

### Best Advance in Sales Enablement and Performance Tools

The category **Best Advance in Mobile Sales Enablement and Performance Tools** is for a written description of the technology for innovation in mobile sales enablement and performance platforms designed to power sales through smartphones and tablets. Nominees should demonstrate optimized and responsive mobile capabilities that provide sales reps with the content, training, coaching, and insights they need anytime, anywhere. The ideal submission will showcase how the mobile solution helps reps effectively engage customers with dynamic sales collateral, interactive presentations, and more. Submissions should highlight mobile-first features that drive adoption and utilization among field sales teams.

## Best Advance in Sales Enablement Technology for Small and Medium-Sized Businesses

The category **Best Advance in Sales Enablement Technology for Small and Medium-Sized Businesses** in the Sales Enablement program is for a written description demonstrating affordable capabilities in technology scaled for SMB sales organizations seeking to maximize limited resources. The ideal submission will showcase robust features offered at accessible price points for companies with constraints on budget, IT, infrastructure, and staffing. Submissions should highlight flexible tools with seamless integration and low-lift adoption for SMB sales reps and leaders.

## Best Advance in Emerging Sales Enablement Technology

The category **Best Advance in Emerging Sales Enablement Technology** is for a written description of the technology for excellence and innovation in new, pioneering sales enablement technologies that represent the future of sales performance. Nominees should demonstrate cutting-edge capabilities that push boundaries and establish new best practices. The submission should showcase how it leverages new techniques or technology breakthroughs to transform sales workflows, methodologies, and productivity.

## Best Advance in Sales Training Online Application

The category **Best Advance in Sales Training Online Application** in the Sales Enablement program is for a written description of the technology for online sales training platforms designed to develop critical selling skills. Nominees should demonstrate how interactive, engaging online learning tools are advancing sales training for improved performance. The ideal submission will showcase course offerings that align training to each rep's strengths, weaknesses, and role. Submissions should highlight capabilities like skills assessments, microlearning, gamification, simulations, and metrics to track adoption.

## Best Advance in Unique Sales Enablement Technology

The category **Best Advance in Unique Sales Enablement Technology** in the Sales Enablement program is for a written description of the technology for excellence and innovation in creative sales enablement solutions that showcase unique, one-of-a-kind approaches. Nominees should demonstrate exceptionally novel applications of technology or methodology to empower sales teams. The ideal submission will highlight how its innovative techniques produce game-changing outcomes. Submissions should showcase how the solution pushes boundaries and reimagines sales enablement unlike anything before.

## FUTURE OF WORK TECHNOLOGY

### Best Advance in Business Automation

The category **Best Advance in Business Automation** in the Future of Work program is for a written description of technology that combines RPA, AI, and advanced analytics to automate high-volume, repetitive tasks across HR, accounting, customer service, and other business functions. The low-code solution allows non-technical users to build bots and enables end-to-end automation of workflows. The innovative platform drives digital transformation and quick ROI.

### Best Advance in Business Strategy and Technology Innovation

The category **Best Advance in Business Strategy and Technology Innovation** in the Future of Work program is for a written description of technology offering cloud, mobility, and disruptive technologies to reimagine their traditional brick-and-mortar business model.

### Best Advance in AI for Business Impact

The category **Best Advance in AI for Business Impact** is for a written description of technology that leverages AI and Machine Learning to meet an organizations current and future business objectives.

### Best Advance in Technology Innovation for the Remote Workforce

The category **Best Advance in Technology Innovation for the Remote Workforce** in the Future of Work program is for a description of technology that provides, facilitates or enhances one or more elements of employee experience specifically for remote workers (those primarily working away from a traditional work site).

### Best Advance for Leading Under a Crisis

The category **Best Advance for Leading Under a Crisis** in the Future of Work program is for technologies that can help disrupt workforces globally by providing tools to support rapidly enabled remote work while ensuring productivity and connection. Examples of technologies may include:

- Virtual collaboration
- AI-driven health monitoring
- Predictive analytics empowered data-driven decisions and workforce agility under uncertainty and others

### Best Advance in Corporate Wellbeing Technology

The category **Best Advance in Corporate Wellbeing Technology** in the Future of Work program is for a written description of technology that equips employers with tools to organize, manage and administer wellness and wellbeing programs. This includes, but is not limited to, software that encourages employees to take a proactive approach to their physical, emotional or financial health and provides input and feedback that informs or inspires employees' choices about their wellness and wellbeing.

### Best Advance in Social Impact Innovation

The category **Best Advance in Social Impact Innovation** in the Future of Work program is for a written description of technology or tools that organizations create and use to facilitate improvement of the welfare and well-being of individuals, groups, or communities external to the organization.

### Best Advance in Diversity and Inclusion Innovation

The category **Best Advance in Diversity and Inclusion Innovation** in the Future of Work program is for a written description of the technology of a groundbreaking inclusive hiring platform. The technology mitigates unconscious bias by removing demographic identifiers from resumes and profiles before hiring managers review them. Advanced analytics further enhance equitable hiring by optimizing job ads and referrals for diversity.

### Best Accessibility and Special Needs Platform

The category **Best Accessibility and Special Needs Platform** in the Excellence Education Technology Program is for a written description of a platform designed to support learners with special needs and disabilities. Nominees should showcase compliant design based on accessibility standards that remove barriers and enables equal participation. The ideal submission will demonstrate customizable features tailored to diverse learning abilities and cognitive, physical, sensory, or other exceptionalities. Submissions should highlight alternative communication tools, individualized learning paths, and robust accommodations for tests and assignments.

### Best Adaptive Learning Solution

The category **Best Adaptive Learning Solution** in the Excellence Education Technology Program is for a written description of an adaptive learning solution that customizes instruction to each student's unique needs. Its intelligent algorithms assess mastery in real time and adapt courseware difficulty, content, and pace to strengthen comprehension. Robust data analytics provide teachers with actionable insights to target interventions.

### Best Artificial Intelligence (AI) Solution

The category **Best Artificial Intelligence (AI) Solution** in the Excellence Education Technology Program is for a written description of an artificial intelligence platform that personalizes student learning while providing actionable insights for teachers/instructors. Its adaptive tutorials, personalized assessments, and real-time progress monitoring harness the power of AI to target instruction and promote growth for each individual student/learner.

### Best Arts, Music, or Creative Solution

The category **Best Arts, Music, or Creative Solution** in the Excellence Education Technology Program is for a written description of platforms that nurture arts education, music instruction, and creative expression. Nominees should provide innovative tools that enable learners to unleash their imagination and bring creative projects to life. The ideal submission will showcase features tailored to arts disciplines like visual arts, dance, theater, music, graphic design, and more. Submissions should demonstrate how the solution helps educators design engaging arts curriculum and share student creations.

### Best Assessment, Survey and Testing Solution

The category **Best Assessment, Survey and Testing Solution** in the Excellence Education Technology Program is for a written description of solutions for assessment, surveys, and testing. Nominees should enable educators to gauge student learning through formative, summative, benchmark, and diagnostic evaluations. The ideal submission will showcase advanced analytics and reporting capabilities to derive actionable insights from assessment data. Applicants should demonstrate how the solution saves time, provides feedback loops, and generates metrics to personalize instruction. These pioneering solutions drive the next generation of data-driven education by seamlessly integrating assessment into teaching and learning.

### Best Augmented Reality, Virtual Reality (AR, VR) Solution

The category **Best Augmented Reality, Virtual Reality (AR, VR) Solution** in the Excellence Education Technology Program is for a written description of solutions that transport learners to new worlds for immersive learning experiences. Nominees should showcase innovative AR/VR technology used to enable students to visualize concepts, explore environments, and engage with learning in multidimensional ways. The ideal submission will demonstrate seamless integration of interactive 3D/VR content and compatibility with AR/VR devices. Submissions should highlight intuitive creation tools that empower educators and learners to author customized AR/VR learning modules.

### Best Authoring Tools Platform

The category **Best Authoring Tools Platform** in the Excellence Education Technology Program is for a written description of an authoring platform that enables educators to easily create interactive online lessons, assessments, and learning activities. Its drag-and-drop interface, rich media integration, and real-time collaboration allow teachers to develop engaging digital curriculum aligned to standards.

### Best Badging and Credentialing Solution

The category **Best Badging and Credentialing Solution** in the Excellence Education Technology Program is a written description that describes a robust badging and credentialing platform that allows educators to create, issue, and manage digital badges aligned to learning standards and competencies. Its portfolio builder and share tools empower students/learners to showcase credentials to colleges, employers, and more.

### Best Career Planning Solution

The category **Best Career Planning Solution** in the Excellence Education Technology Program is for a written description of a comprehensive career preparation and planning platform that provides personalized guidance and tools to middle school, high school, and college students. Its engaging assessments, digital portfolios, and extensive career profiles empower students to explore interests, build skills, and map their paths to dream careers.

### Best Classroom Management Platform

The category **Best Classroom Management Platform** in the Excellence Education Technology Program is for a written description of a comprehensive classroom management platform that transforms traditional classrooms into dynamic learning environments. Its user-friendly dashboard, behavior tools, monitoring features, and integration with leading edtech apps help teachers/instructors boost efficiency, achievement, and involvement.

### Best Collaboration Platform

The category **Best Collaboration Platform** in the Excellence Education Technology Program is for a written description of an innovative digital collaboration platform that facilitates active learning and teamwork. Its real-time document editing, virtual whiteboards, and built-in communication tools empower students to collaborate on projects and connect with peers. Seamless LMS integration provides a unified learning experience.

### Best Content Design Platform

The category **Best Content Design Platform** in the Excellence Education Technology Program is for a written description of an intuitive content design platform that streamlines curriculum development for personalized learning. Its flexible templates, standards alignment tools, and built-in assessments empower educators to create adaptable digital courseware, lessons, and learning resources.

### Best Creative Tools and Products

The category **Best Creative Tools and Products** in the Excellence Education Technology Program is for a written description of an online platform with intuitive, creative apps that allow learners and instructors to make videos, games, 3D models, digital art, podcasts, and more. Its drag-and-drop interfaces, multimedia libraries, collaboration tools, and custom portfolios empower imagination and unlock learning through creation.

### Best Curriculum and Instruction Platform

The category **Best Curriculum and Instruction Platform** in the Excellence Education Technology Program is for a written description of a curriculum and instruction platform that supports personalized learning. It provides standards-aligned lesson planning tools, interactive courseware, assessments, grading, reporting, and parent communication to engage students and enhance instruction.

### Best Digital Courseware Platform

The category **Best Digital Courseware Platform** in the Excellence Education Technology Program is for a written description of standards-aligned digital courseware that adapts to each student's needs for personalized learning. Its interactive lessons, multimedia resources, formative assessments, and real-time data provide engaging and effective instruction across all subjects and grade levels.

### Best E-learning, Blended, Flipped Classroom Solution or Remote Solution

The category **Best E-learning, Blended, Flipped Classroom Solution, or Remote Solution** in the Excellence Education Technology Program is for a written description of an innovative digital learning solution for blended, flipped, and remote instruction. Its interactive courseware, video conferencing, LMS integration, and real-time analytics provide a seamless experience across in-class and virtual settings to drive student engagement and achievement.

### Best Emerging EdTech Solution

The category **Best Emerging EdTech Solution** in the Excellence Education Technology Program is for a written description of innovation in new, emerging education technologies shaping the future of teaching and learning. Nominees should demonstrate cutting-edge capabilities made possible by inventive uses of technology. The ideal submission will showcase how it pushes boundaries and establishes a new standard for the student experience and instructional best practices. Submissions should highlight the solution's novelty and illustrate its potential for wide-scale impact in education.

### Best Enrollment & Admissions Platform

The category **Best Enrollment & Admissions Platform** in the Excellence Education Technology Program is for a written description of an intuitive enrollment and admissions platform that simplifies the process for families and schools. Its interactive search tools, online applications, and streamlined communications provide a centralized hub to find the right fit from pre-K to college.

### Best Learning Management System (LMS) for Education

The category **Best Learning Management System (LMS) for Education** in the Excellence Education Technology Program is for a written description of a flexible, all-in-one learning management platform tailored for K-12 and higher Education. Its user-friendly interface, customizable courses, gradebook, assessments, analytics, and seamless integrations unite virtual and in-person learning.

### Best Lesson Planning Platform

The category **Best Lesson Planning Platform** in the Excellence Education Technology Program is for a written description of an intuitive online lesson planning platform that helps teachers efficiently create engaging learning experiences. Robust templates, standards alignment tools, differentiated instruction resources, and content sharing simplify workflow from unit design to daily lessons.

### Best Literacy and Reading Platform

The category **Best Literacy and Reading Platform** in the Excellence Education Technology Program is for a written description of an engaging literacy platform that builds strong readers through adaptive lessons, interactive ebooks, and real-time progress monitoring. Its research-backed approach develops phonics, vocabulary, comprehension, and fluency at every grade level.

### Best Mobile App for Education

The category **Best Mobile App for Education** in the Excellence Education Technology Program is for a written description of an innovative and engaging learning experience for students. Nominees should demonstrate an exceptional user interface and design that promotes active learning, collaboration, creativity, and discovery. The ideal submission will showcase how the mobility, accessibility, and unique capabilities of the application platform are leveraged to transform education. Submissions will be evaluated on overall innovation, pedagogical design, content quality, user experience, and engagement.

### Best Online Courses or MOOCs Solution

The category **Best Online Courses or MOOCs Solution** in the Excellence Education Technology Program is for a written description of immersive online courses and MOOCs featuring standards-aligned interactive video lessons, assessments, discussions, and real-time analytics. Its robust platform delivers an engaging learning experience across K-12 and higher education subjects.

### Best Personalized Learning Platform

The category **Best Personalized Learning Platform** in the Excellence Education Technology Program is for a written description of an intelligent, personalized learning platform that customizes education for each student's strengths and needs. Its adaptive curriculum, targeted interventions, and robust analytics empower educators to provide meaningful, differentiated instruction at scale.

### Best Presentation Tools

The category **Best Presentation Tools** in the Excellence Education Technology Program is for a written description of excellence in presentation software and tools that boost teacher and student slide deck creation, communication, collaboration, and delivery. Nominees should provide easy-to-use, intuitive features that help educators and learners craft visually compelling and interactive presentations. The ideal submission will demonstrate innovative capabilities that encourage active learning, collaboration, and audience engagement before, during, and after presentations. Submissions should showcase how the tool promotes presentation literacy, simplifies complex processes, and integrates with commonly used education platforms and devices. This category honors the most outstanding presentation solution that enables impactful slide-based lessons, projects, and speeches.

### Best Recruiting, Hiring for Internships Platform

The category **Best Recruiting, Hiring for Internships Platform** in the Excellence Education Technology Program is for a written description of a solution that expedites recruiting and hiring top talent for education positions and internships. Its two-way matching uses AI to connect applicants with the right roles based on skills, experience, and preferences, improving outcomes for both candidates and institutions.

### Best Research and Resources Platform

The category **Best Research and Resources Platform** in the Excellence Education Technology Program is for a written description of an online platform that provides educators with high-quality, pedagogically relevant resources to enhance teaching and learning. Nominees should enable simple discovery and access to trusted content like lesson plans, instructional videos, images, and interactive games. The ideal submission will demonstrate how the platform saves teachers time while connecting them to resources aligned to standards across subjects and grade levels. Submissions should showcase advanced search and recommendation capabilities, teacher collaboration and resource-sharing opportunities, and seamless integration with popular learning management systems.

### Best STREAM (Science, Technology, Research, Engineering, the Arts and Mathematics) Solution

The category **Best STREAM (Science, Technology, Research, Engineering, the Arts and Mathematics) Solution** in the Excellence Education Technology Program is for a written description of educational technology promoting integrated STREAM learning. Nominees should enable interdisciplinary, project-based instruction spanning science, tech, research, engineering, arts, and math content areas. The ideal submission will demonstrate how it helps educators facilitate real-world application of STREAM skills like critical thinking, creativity, collaboration, and communication. Submissions should showcase adaptive tools tailored to diverse learning abilities and interests, along with robust assessment capabilities. This category honors the most outstanding edtech solution that takes an integrated approach to developing well-rounded STREAM competencies in students. By transcending siloed subject matter divisions, these pioneering platforms are shaping the future of skills-based, hands-on learning.

### Best Student Data Privacy Solution

The category **Best Student Data Privacy Solution** in the Excellence Education Technology Program is for a written description of solutions that prioritize protecting student data privacy. Nominees should demonstrate compliance with relevant privacy laws and regulations, as well as a commitment to transparency around data collection practices. The ideal submission will showcase technological safeguards like encryption, access controls, and stringent cybersecurity protocols. Submissions should highlight how the solution empowers schools and districts to maintain ownership over student data while preventing unauthorized access and use. This category honors the most outstanding education technology that holistically addresses data privacy needs for students, teachers, parents, and administrators alike.

### Best Student Study Tools

The category **Best Student Study Tools** in the Excellence Education Technology Program is for a written description of a solution that supports effective student studying and exam preparation. Nominees should provide tools to help learners actively engage with course material, retain knowledge, and assess understanding. The ideal submission will showcase innovative features that personalize the studying experience and adapt to each student's learning patterns. Submissions should demonstrate how the solution promotes productive study habits while addressing exam stress and test anxiety.

### Best Tutoring Solution

The category **Best Tutoring Solution** in the Excellence Education Technology Program is for a written description of solutions that facilitate and enhance tutoring relationships for academic support. Nominees should leverage technology to connect individual learners with qualified tutors in virtual and/or in-person settings. The ideal submission will showcase features that personalize tutoring to student needs and seamlessly enable sessions via video chat, file sharing, screen sharing, and more. Submissions should demonstrate how the solution builds relationships, tracks progress, and incorporates interactive tools to boost engagement. This category honors the most outstanding platform that expands access to tutoring while optimizing its impact and effectiveness, driving better outcomes for all students.

### Best Video-Based Learning Platform

The category **Best Video-Based Learning Platform** in the Excellence Education Technology Program is for a written description of platforms that engage learners through immersive multimedia experiences. Nominees should showcase extensive libraries of standards-aligned video lessons, segments, lectures, demonstrations, and more. The ideal submission will demonstrate interactive viewing tools like note-taking, quizzes, commenting, and seamless integration with LMS platforms. Submissions should highlight advanced discovery features that connect users to relevant video content.
